WATER CYCLE

Find it!

Glacial Rain by Julia Fernandez-Pol

Julia Fernandez-Pol was born in 1984. She is one of the youngest artists to have work in this museum's collection. She created this abstract painting after visiting a glacier off the coast of Argentina. Some people look at this painting and think that the large circle represents the water cycle.

Do you see another story? _____

Look carefully at the painting and see what tools besides brushes the artist might have used? _____

At home

Create abstract art about another science cycle, like the life cycle of a butterfly!

The FAC conserves water by landscaping with drought-tolerant plants. Draw or write about how you save water at school or home!
