

A72 - Memory Jewelry

Instructor: Sara Rashkin

Materials

- 8 oz Colores Doming Resin OR 4 oz Ice Resin (2 part resin kits)
- Earwires (French hook, lever back, or posts with loop for attaching charms) in metal of your choice (copper, silver, brass, gold, etc.) – 3 pairs or more
- 20 gauge copper sheet metal, 4x4 square or larger

Tools

- Round nose pliers
- Side cutters
- Chain nose pliers
- Flat nose pliers
- Hardware store hammer (recommend 16 oz)
- Sharp scissors for precision cutting paper

We will discuss all other materials on the first day of class to tailor the projects to your taste, personal materials/photos, and budget. Additional tools and materials will also be provided during class. If you wish to wait on purchasing these materials until after the first day of class, so that you can purchase all your materials at once, resin and tools will be available for your use during the first class. However, in the following weeks each student will need her or his own supplies.

If you're able to spend time before the class collecting some of your photos, books, metal charms, and other souvenirs that are meaningful to you, you may find that makes it easier to find the materials you want when you are designing during the class. (We will be using photocopies in many cases, not destroying treasured photos.)

Suppliers

You can purchase these tools and materials online or at local retailers. Some suggested sources:

- Ackley's Rocks (tools, earwires, sheet metal)
3230 North Stone Avenue
719-633-1153
- Riogrande.com (Colores Doming Resin, tools, earwires, sheet metal)
- Objectsandelements.com (ICE Resin, tools)

Estimated cost for supplies - \$75
